

Integrated Management System Policy

Integrated Management System (IMS) Policy incorporates and governs the Quality, Environment, Health & Safety, Information Security Management systems and Business Continuity Management system.

We are committed to continually improve and innovate our processes and systems to deliver best-in-class foundry services to all our customers.

We shall ...

- **Strive to do the right thing right the first time, every time.**
- **Develop people fully to maximize their potential.**
- **Build partnerships with customers and suppliers.**
- **Assure business continuity, confidentiality, integrity and availability of information assets.**
- **Demonstrate strong commitment to social responsibility:**
 - **Ensure occupational health & safety aspects of personnel, materials, and equipment at our workplace.**
 - **Conserve and preserve the environment, including energy and water as well as provide hazardous substance free products.**
 - **Use metals derived from the non-conflict region.**
 - **Contribute to our community at large as an exemplary corporate citizen.**
- **Comply with all applicable legislation & regulations, and requirements of international standards.**
