

RAISING THE BAR

SSMC receives SkillsFuture Employer Award 2019

SSMC is honored to receive the SkillsFuture Employer Award 2019, presented by Mdm Halimah Yacob, President of Singapore on 30 Jul. This Award recognises our efforts in championing skills development, offering all employees skill-upgrade opportunities and structured career pathways and bringing out their best potentials.

- Internally, we have a unique Scholarship program, Book Prize fund and learning credits to promote lifelong learning. Recently, we have launched the Bite-Size learning portal, in our intranet platform to enable e-learning. This together with our monthly Technical Series Lectures and conference in house help to improve our technical competency development.
- Externally, we support the SkillsFuture's Earn-and-Learn, Professional Conversion Programme. Being an ITE Certified OJT training centre and in-house WSQ ATO, we play a key role in supporting the development of WSQ Wafer Fabrication Framework in Singapore. Being future-ready is vital for everyone in this increasingly digital world!
- >70% of workforce in SSMC has undergone skill-upgrade to support industry 4.0

Thank you SkillsFuture SG for nominating SSMC for this great recognition award. It motivates us to contribute even more to strengthen the talent pool in semiconductor Industry. Also, thanks to our HR department, especially our learning and development team for their dedication. Moreover, our sincerest thanks to all our employees for their support in making this achievement possible.
